

How to Tie a French Knot (Eye Decoration)

1. Tie a knot at the end of your thread. This will stop you from pulling too much thread through.

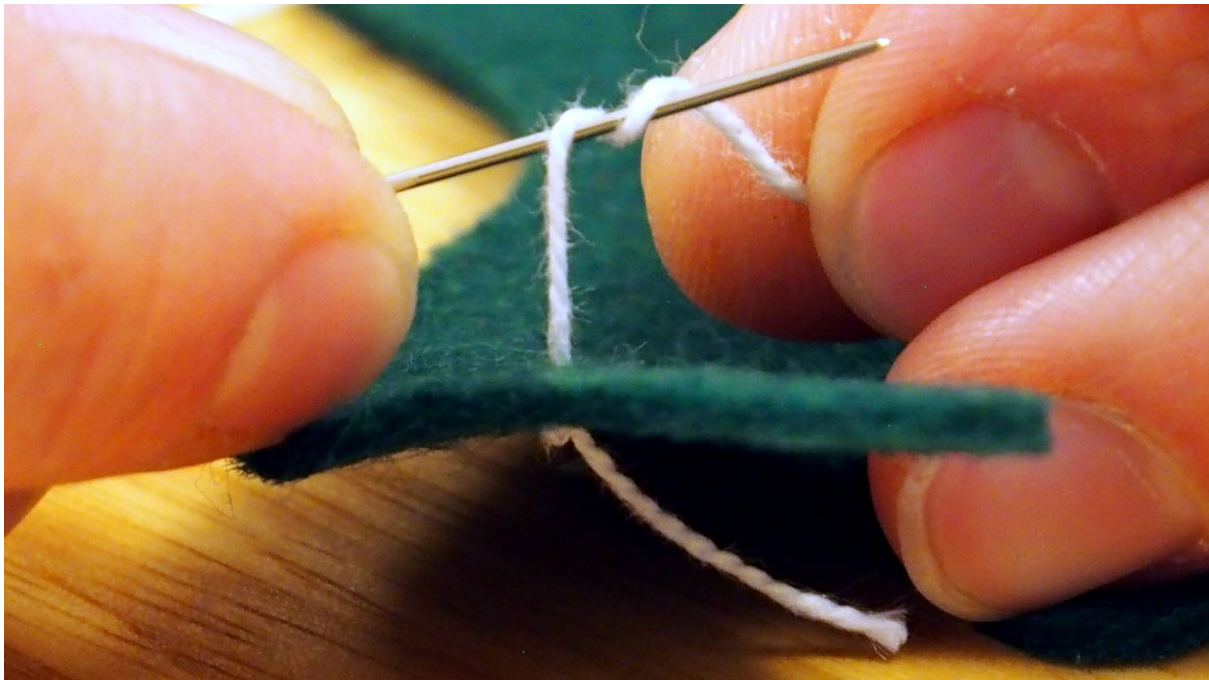

2. Poke your needle through 1 of your felt layers. Pull the needle and thread through until the knot stops you pulling more.

3. Wrap the thread 2 times around the end of your needle and pull it tight.

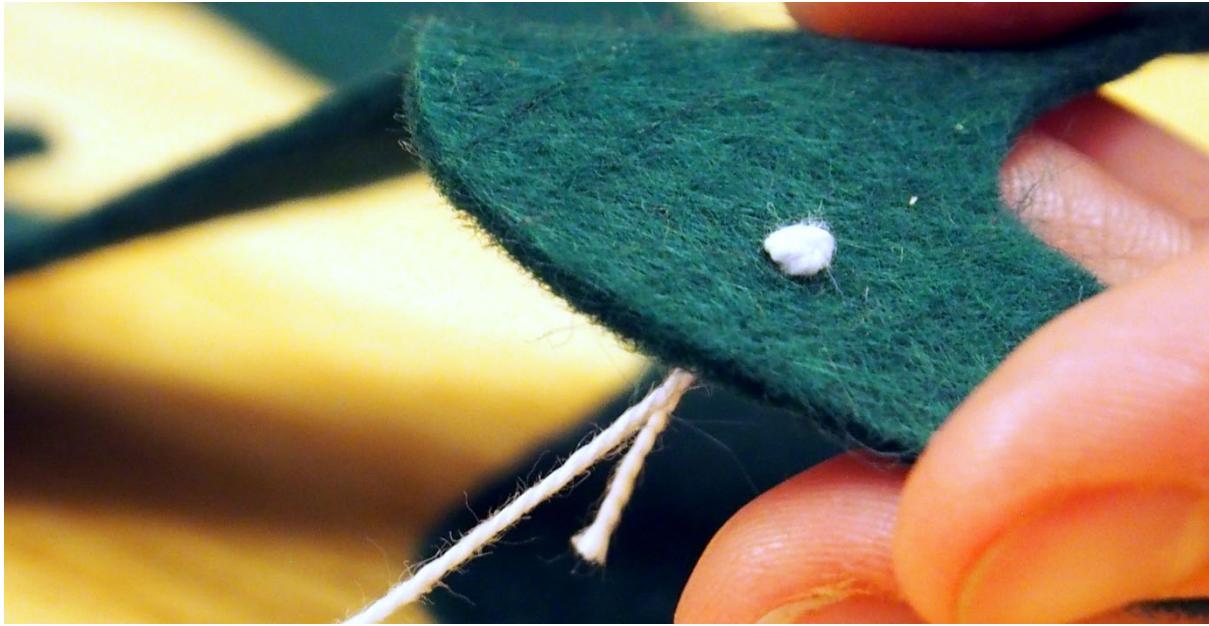

4. Keep pulling the looped thread tight around the needle. Push the end of the needle back down through the felt, close to where you came up.
